ABOUT US

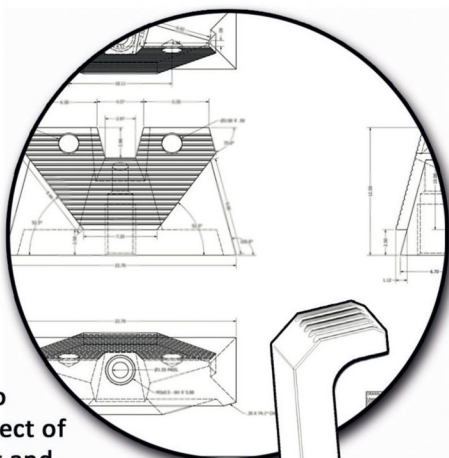

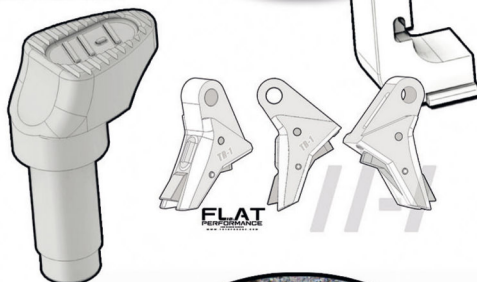

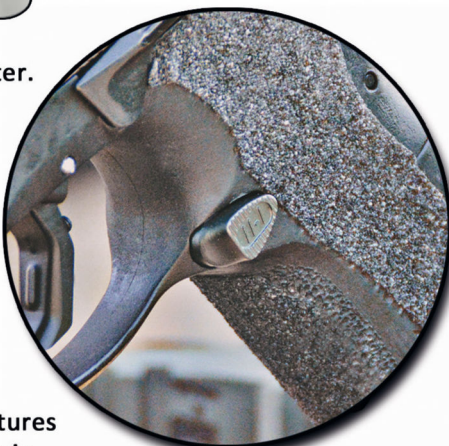

TR-1upgrade® is a dynamic and innovative manufacturing company, founded in 2015, and is dedicated to the production and distribution of accessories and technical components for firearms at a professional level. Our company specializes in creating accessories on very specific bases, as well as developing. We believe in meticulous planning and creative ideation to ensure that each project is not only functional but also aesthetically compelling. Our team of skilled professionals is dedicated to bringing innovation and excellence to every aspect of project design, creating solutions that stand out and meet the unique needs of our clients

DEVELOPMENT

The new product development in our lab involves adapting and revising original spare parts, with a focus on improvement and aesthetic and mechanical upgrades, and/or creating entirely new products. The advantage of performance must also stem from the perfect combination of the shooter. Our team is committed to continuous learning and adapting to the evolving landscape, ensuring that our development efforts not only meet current standards but also anticipate the needs of tomorrow.

PROTOTYPING

Our products crafted from ERGAL aluminum alloy using CNC machining. With exceptional aeronautical and mechanical durability, it is precision-machined from solid material and features a military-grade anti-scratch and anti-rust galvanic coating. TR-1upgrade® is born out of the needs of a sports shooter, arising from direct and firsthand experiences still encountered on shooting ranges today.

TESTING

The precision in every detail of the final product ensures that the original safety mechanisms of the firearm remain unchanged. These components are offered to gun stores after undergoing rigorous field tests, ensuring maximum safety of use and an ideal fit for both sporting and professional purposes. The modifications made to certain elements result in a more precise, defined, and dynamic view, allowing the shooter to perceive each phase of the shot with greater clarity and sensitivity.

MARKETING & ADVERTISING

Our mission is to enhance the value of handguns, boost gun store sales, and provide end customers with an improved product featuring the TR-1[®] products. Our company stands out in the B2B sector for authorized sales, operating with an innovative approach focused on quality. We are actively present on social media, where we engage with our community and share the latest updates about our products. Collaboration with strategic partners and important influencers is crucial for our growth, as they authentically endorse and review all our products, contributing to solidify our presence in the market and build a strong and reliable reputation.

DEALER SALES

Numerous international shooters from sporting circles, including IDPA and IPSC, choose to compete with TR-1upgrade[®] products. Our distinctive triggers are utilized and endorsed by renowned international shooters and testimonials.

TERMS OF SALE

SALES AND WARRANTY INFORMATION

Sales Conditions TR-1upgrade reserves the right to update, at any time and without prior notice, both the products and the price lists featured in this catalog. These changes may be made on a monthly basis to introduce technical improvements, optimize production processes, or adapt to new commercial strategies.

The photographs and illustrations shown in this catalog are for demonstration purposes only. Actual product colors may slightly differ due to variations caused by printing and graphic reproduction processes.

All texts, images, and other content within this catalog are the exclusive property of TR-1upgrade. Reproduction, distribution, or use without written authorization is strictly prohibited.

The prices displayed on the B2B platform are “minimum recommended retail prices”. Since they may change over time, we recommend periodically visiting our website to check for the most up-to-date information.

Warnings Open the packaging carefully to avoid accidental damage.

Some products must be installed by qualified professionals using the proper tools. It is strongly discouraged to modify, alter, or tamper with any components. If you experience difficulties during assembly or use, please contact our customer service for support.

Warranty As a direct manufacturer, TR-1upgrade provides a warranty that exclusively covers defects in materials or workmanship. Depending on the nature of the issue, the product may be repaired, replaced, or, if necessary, refunded.

The warranty does not cover damage resulting from normal wear and tear, improper use, negligence, or unauthorized modifications. To report a problem or request assistance, please contact us by phone or e-mail, providing a detailed description of the defect encountered.

HOW TO ORDER

B2B SITE FOR GUNSTORE

- COMPLETE THE "BECOME A DEALER" FORM.
A PERSONAL PASSWORD WILL BE CREATED
FOR ACCESS TO THE B2B AREA.
- CHOOSE THE CATEGORY AND PRODUCT TYPE.
- RECOMMENDED RETAIL PRICE AND DEALER PRICE.
- ADD TO CART AND CHECKOUT.
- WAIT FOR THE PROFORMA EMAIL WITH
SHIPPING COSTS ADDED.

COMPENSATOR

FURY MODEL

The Fury Micro Compensator is almost as compact as a simple thread protector, yet delivering impressive performance: it compensates more than many larger models without requiring a holster change. It is a truly revolutionary micro comp, combining maximum compactness with superior performance.
